

UMM-E-HANI

Full Stack Web Developer | AI/ML Enthusiast

Karachi, Pakistan | +923092461696 | hanikamal700@gmail.com | [Portfolio](#) / [LinkedIn](#)

PROFESSIONAL SUMMARY

Detail oriented Full Stack Web Developer with hands on experience across front-end, back-end, and AI-powered application development. Proficient in HTML5, CSS3, JavaScript, React.js, PHP, and MySQL, with growing expertise

in Python and AI API integration (Gemini, Claude, Groq). Delivered real client projects including a worldwide car booking platform and a fully functional e-commerce store, and independently built ExamMate AI — an AI-powered exam preparation web app featuring ML-based analytics and NLP capabilities. Currently expanding full-stack and AI/ML skills through a Diploma in Web Development at Aptech Learning and pursuing a BS in Data Science degree in (SSUET).

WORK EXPERIENCE

Freelance Web Developer & Project Coordinator

Oct 2024 – Present

Self-Employed | Karachi, Pakistan

- Designed and developed fully responsive websites for clients using HTML5, CSS3, JavaScript, and PHP, ensuring cross-browser compatibility and mobile-first design.
- Delivered a worldwide car booking web platform (team project, 1.5 months) featuring global car browsing by country, online booking system, PDF booking download, and a second-hand car marketplace built with PHP and MySQL.
- Delivered a fully functional e-commerce store (team project, 1 month) for a fashion and beauty brand built with WordPress and WooCommerce, complete with product listings, cart, and checkout system.
- Designed all website UI/UX layouts from scratch, maintaining a strong focus on clean design, performance, and intuitive user experience.
- Managed project timelines, task assignments, and client milestones using Trello to ensure consistent on-time delivery.
- Handled client communication professionally, gathering feedback and implementing revisions efficiently.

Sales Representative (Internship)

Nov 2025 – Jan 2026

IJKMedia | Karachi, Pakistan — 3 Months Internship

- Engaged with potential clients and communicated service offerings clearly, persuasively, and professionally.
- Developed strong communication, negotiation, and follow-up skills in a fast-paced corporate environment.
- Gained practical experience in client relationship management, sales pipeline coordination, and team collaboration.

PROJECTS & WEB APPLICATIONS

ExamMate AI — AI-Powered Exam Preparation Platform

TechStack:Python | Flask | GeminiAPI | GroqAPI | MachineLearning | NLP

- Built a full-stack AI web application using Flask (Python) integrated with Gemini and Groq APIs for intelligent exam preparation.
- Developed features including automated MCQ generation, past paper solving, AI-based notes summarization, and ML-driven performance analytics.
- Implemented adaptive quiz logic and API fallback architecture (Groq primary, Claude Haiku fallback) for high system reliability.

Worldwide Car Booking Platform

TechStack:HTML5 | CSS3 | JavaScript | PHP | MySQL

- Worldwide car booking web platform for a real client. Users can browse and book cars from any country, download booking confirmation as PDF, and list second-hand cars for sale.

E-Commerce Fashion & Beauty Store

TechStack:WordPress | WooCommerce | HTML5 | CSS3

- Fully functional online store for a fashion and beauty brand, with complete product listings, cart management, and payment checkout system.

Art Gallery Management System

TechStack:ASP.NETCore | C# | SQLServer

- Dynamic enterprise web application for managing art gallery inventory, artwork details, artist profiles, and exhibition scheduling.

Artora — Art Exhibition Platform

TechStack:HTML5 | CSS3 | JavaScript

- Front-end web project designed and presented at college exhibition, showcasing an interactive art gallery layout with modern UI/UX design.

Hotel Booking Website

TechStack:HTML5 | CSS3 | JavaScript | Bootstrap

- Luxury hotel booking website complete with intuitive room showcase, interactive booking management, and back-end admin panel.

Dental Clinic Website

TechStack:HTML5 | CSS3 | JavaScript | Bootstrap

- Responsive front-end website for a dental healthcare clinic featuring detailed service descriptions, appointment requests, and doctor profiles.

DevIgnite Studio — Digital Studio Website

TechStack:HTML5 | CSS3 | JavaScript

- Personal digital agency portfolio web application designed to showcase custom web design and development service offerings to clients.
